

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

ADVANTAGE AUSTRIA

Group of highly specialized Austrian companies within the aeronautic and defense industry. (Delegation of 11 companies represented)

Austria

AT&S

Manufacturers of printed circuit boards

Austria

MCE STAHL- UND MASCHINENBAU GMBH & CO KG

Designing, assembling and erecting complex steel constructions (steel bridges, structural steel).

Austria

PANKL AEROSPACE SYSTEMS EUROPE GMBH

Drivetrain components, refuelling tubes and landing gear components for helicopters and fixed wing aircraft.

Austria

SCHOEN AEROSPACE TRADING & CONSULTING GMBH

Consultancy and complete solutions in the fields of Security & Defence, Industrial Cooperation & Energy and Project Financing (in Austria and the CEE countries).

Austria

VALENTIN TUSCH GMBH

Development of special aircraft for federal border protection and war assignments Specially developed, 2-seater motorised glider for patrolling borders Equipped with two thermal imaging cameras for silent night patrols.

Austria

SABCA SA

Aeronautical constructions, structures, servo-controls. Maintenance and upgrading of military aircraft.

Belgium

AIR DATA INC

Avionics & Power solutions

Canada

GUARDUS SOLUTIONS

Manufacturing execution system

Canada

AIRBORNE TECHNOLOGIES GMBH

Airborne Surveillance, Remote Sensing & System Integration.

Austria

AXIS FLIGHT TRAINING SYSTEMS GMBH

Flight Simulators for all types of aircraft and configurations

Austria

OST FEINGUSS GMBH

Aerospace industry, automotive high property and design parts, medical applications, mechanical engineering, chemical industry, paper industry, parts for nuclear power plants, military applications, parts for hunting and sport weapons and rapid proto

Austria

PLANSEE METALL GMBH

High performance materials produced by powder metallurgy.

Austria

TTTECH COMPUTERTECHNIK AG

Distributed Platforms and Deterministic Networks, Ethernet-based (ARINC664, SAE AS6802) switches

Austria

VILLINGER GMBH

Advanced Aircraft Ice Protection heatable coatings

Austria

TECHSPACE AERO

Production of engines parts and/or modules for commercial and military engines - Production of heat transfer and lubrication equipments. Production of space components. Test cells engineering for commercial and military applications

Belgium

ASSOCIATION QUEBECOISE DE L'AEROSPATIALE

Canadian Aerospace Association (Delegation of 5 companies)

Canada

PRATT & WHITNEY CANADA

World leader in the design, manufacture and service of aircraft engines, space propulsion systems and industrial gas turbines

Canada

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

(CASIC) ACADEMY OF INFORMATION TECHNOLOGY

The clients are throughout the government, military, public security, transportation, finance, education, health, electricity and other industries. CASIC-IT will adhere to scientific development, take the road of civil-military harmonious development, and be stabilized on the military business and prospers on civil business. Taking "Demand Pull, technology drive" as principle, and enhancement of information technology research level and product development and systems integration capabilities as the goal, CASIC-IT will speedily establish information technology research and system integration capabilities, continuously strengthen technology in information access, digitalized comprehensive support, and data transmission and distribution of, vigorously develop payload products, satellite application products, electronic warfare products, digitalized comprehensive support products, system products and intelligent instrumentation products. With excellent space technology, rigorous style of work space, and high-quality aerospace products and services, CASIC-IT will make its own contribution for national defense modernization and economic development

China

AERO VODOCHODY A.S.

Design, engineering and manufacturing of complex and equipped aerostructure assemblies, as well as full aircraft.

Czech Republic

40-30

Engineering, maintenance, training, spares center, IT applications, sales representation

France

AD INDUSTRIE

AD Industrie, specialist in mechanical and hydraulic ingeneering, is a key partner of prime contractors for the supply of highly technical parts and precision mechanical assemblies

France

AÉRIADES - POLE AEROSPATIAL LORRAIN

Aerospace & Defense Lorraine Region Cluster (France)

France

ALTEP INGENIERIE

Engineering Products and Systems, engineering and Logistical Documentation, engineering Projects and Processes, technical and methodological expertise

France

APEX TOOL GROUP

Tooling for aerospace assemblies

France

BEIJING XINGHANG MECHANICAL AND ELECTRIC COMPANY

Mechanics and electricity

China

CZECHTRADE

Promotion of Czech Aerospace Companies (3 Companies represented)

Czech Republic

ACTEL - MICROSEMI SOC

Leading world supplier for FGPA programmable logic of 64 macrocells up to 1,000,000 gateways for OTP and FLASH technologies. Actel manufactures semi-conductors and offers two technologies in the programmable logic field

France

AERAZUR ZODIAC AEROSAFETY

Fuel & De-Icing Systems, Fuel Cells

France

AEROSPACE CLUSTER IN RHONE-ALPES

Cluster of the aerospace companies located in the Rhône-Alpes region (Delegation of 15 Companies)

France

AMPHENOL AIR LB

World leading manufacturer of high performance standard and custom interconnect solutions and accessories for wiring and fixing

France

BLUE FIELD

Trading and support for offset commitments - Sightseeing shop tour for industrial purposes and global business cases. Support to industrials looking for partnerships.

France

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

BODYCOTE - SAINT PRIEST

Heat treatment & Vacuum Brazing, HVOF coating, electron Beam Welding & Hot Isostatic Pressing

France

CORIMA TECHNOLOGIES

know-how to design and manufacture tools, and complex parts

France

DAM

Software Development
Data acquisition control
Special machines

France

DESRANGES / NEXAM AIRCRAFT CUTTING TOOLS

Design and manufacturing of standard and specials cutting tools for milling hard materials and composites, and standard and special cutting tools for aircraft manufacturers and MRO companies. Modification of tools, regrinding of standard and special cutting tools, tool Management
Design and manufacturing of standard and specials cutting tools for milling hard materials and composites, and standard and special cutting tools for aircraft manufacturers and MRO companies

France

DUQUEINE GROUP

DUQUEINE Group is specialized in design & manufacture of composite parts and sub-assemblies, in different business lines: Aerospace, Industry and Sports.

France

ESPACE SA

Machining, assembly, sheet metal work and inspection

France

GROUPE SUMPAR

5-axis machining, sheet metal work and assembly

France

MINITUBES

Custom manufacturing, metal precision tubing, tubular parts and precision tubular micro assemblies. Ø from 0,05 to 10 mm. Various materials including Titanium T40

France

PLASTIPOLIS

Competitive cluster plastics engineering

France

BONNANS

Surface treatment, non destructive inspection, painting, chemical milling on all materials, repair, hot and superplastic forming of titanium, assembly and hydraulic tests.

France

CROUZET AUTOMATISMES

Sensors, cockpit equipment & electrical protection

France

DASSAULT AVIATION

Civil jet & jet fighter manufacturer

France

DIAMOUTILS SAS / TIVOLY

Conception development in super abrasive diamond and cbn tools

France

ECA SINTERS

Specialist of ground and embedded testing means and equipment, solutions in aircraft manufacturing and testing

France

GROUPE EFINOR

Boilermaking, Mechanical welding, Engineering, Mechanical Design Center, Tests, 3D animation, precision mechanics

France

MECANIQUE AERONAUTIQUE PYRENEENNE

Global service provisions aeronautical manufacturers. Risk-sharing projects. 3-4-5 axis UGV high precision machining.
Boilermaking, fine aeronautical sheet metal work.
Aerostructure assembly and mounting.
Material procurement.

France

NORMANDIE AEROSPACE

Aerospace Cluster in Normandie (Delegation of 5 companies)

France

POLE PEGASE

Aerospace cluster of Paca Region France - Delegation of 8 companies

France

**LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS**

PROFORM SA

Cold Bending, Forming, Hydroforming of Ductings. Assembling (Adjusting, TIG/GTAW Welding) and finishing of Ductings / Micro-piercings of Titanium Tubings ("Piccolo")

France

SAT

Designer and manufacturer of industrial ovens & furnaces for every thermal processes up to 650 °C

France

SIRA GROUPE

Manufacturing of metallics and composites mechanical parts and subsets

France

SUCHIER SAS

CNC machining services, mechanical assembly

France

THALES GEODIS FREIGHT & LOGISTICS SA

Logistics & transport

France

A+I ENGINEERING

Aerospace and automotive industry with system modelling, development of simulation environments and tools and organize your Model- and Datamanagement related to Simulation and Testing.

Germany

AIDRONES GMBH

Offers autonomous aerial and nautical systems

Germany

ANECOM AEROTEST GMBH

attractive overall solutions for development, aerodynamic optimization and testing of turbo engines and gas turbines

Germany

AUGUST STEINMEYER GMBH & CO.KG

Leading ball screw manufacturer with 40+ years of experience in aerospace and industrial applications. DIN/ISO 9001 and EN 9100 approved. We build to print or design and build to spec.

Germany

BAVARIA E.V.

Aerospace Cluster of Bavaria

Germany

RESSORTS MASSELIN

Manufacture special springs and washers, compression springs, traction and torsion springs

France

SICAP ELECTRONIQUE

Contractual Production of electronic groups or sub-group

France

SOCOMORE

We have been creating, manufacturing and commercialising expert solutions for the aeronautic market. Our solutions are used to prepare and protect metals and composite materials for construction and maintenance operations.

France

THALES AVIONICS ELECTRICAL SYSTEMS

Aerospace equipment for the generation and power conversion

France

VIAMECA

French Mechanical Competitiveness Cluster

France

ADZ NAGANO GMBH

Develops and manufactures technologically mature and robust sensors meeting highest industrial requirements and for application worldwide

Germany

AIRCRAFT PHILIPP GMBH & CO KG

Ready-to-install components & assemblies:
CNC-milling 5-axis up to 7000mm; CNC-turning up to Ø 1100mm; EDM (wire and die sinking); NDT (PT and MT); surface treatment, sheet metal, Grinding; ASSEMBLY; Supply Chain Management

Germany

ASG LUFTFAHRTTECHNIK UND SENSORIK GMBH

Sensors, actuators, valves for fuel, water, gas & hydraulic systems in aerospace & commercial articles

Germany

BADEN - WURTEMBERG INTERNATIONAL

Agency for International Economic and Scientific Corporation (10 Companies represneted)

Germany

BERLIN BRANDEBOURG AEROSPACE TECHNOLOGY

production of engine parts with OEM series production approval or medium-term aviation law certification, Design and manufacture of parts ,manufacture of parts and test and test of devices, development of advanced processes and components

Germany

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

BEUTTER PRÄZISIONS-KOMPONENTEN GMBH & CO. KG

Beutter Präzisions-Komponenten GmbH & Co. KG - your precision supplier.

As your partner for the supply of fine mechanical components, we want to stress one thing in particular: we want you to be able to rely on us! That means all the time, but especially in the case of complex designs.

We enjoy setting ourselves tough challenges - not least when they involve small and medium-sized production runs.

Germany

CABINET SALES & NETWORK GROUP UG

Germany

CAMERA DI COMMERCIO ITALIANA PER LA GERMANIA

Italian chamber of commerce for Germany (Delegation of 12 companies)

Germany

CH. SCHNEIDER

Engineering, the development and production of prototypes, series manufacturing of complex lightweight construction modules (aluminium, titanium, stainless steel, plastic composites), through to the manufacture of complete components and systems; furthermore, 'design to cost' solutions

Germany

EZENT GMBH

offers sensor solutions

Germany

FORUM LUFT UND RAUMFAHRT BADEN WURTEMBERG EV

The Forum Luft- und Raumfahrt Baden-Württemberg e.V. (Forum LR BW) represents the aerospace industry of Baden-Württemberg and is a link to politics, research institutes, enterprises and other relevant social groups. The cooperation agreement with the University of Stuttgart, the cooperation with the DLR, the Steinbeis-Foundation and other research institutes emphasis the target of a close coordination between research and development within the industry. The working topics and matters like technology, research and development, networking and cooperation, are discussed with the members and are qualified accompanied by different working groups.

Germany

BUSSARD DESIGN AEROSPACE TECHNIK GMBH

Development and production of Equipment test, tooling and GSE for aerospace industry - Development and production of hybrid secondary structure for thruster

Germany

CAM SYSTEMS GMBH

Flight test management, Software development, Innovative solutions for the satellite control centre

Germany

CEROBEAR GMBH

Design, engineering and production of advanced rolling bearings

Germany

EDOTEC QUALITYPARK AVIATIONCENTER GMBH

operating in the aerospace industry and provides its customers with high-quality engineering, design & manufacturing services

Germany

FAG AEROSPACE GMBH & CO. KG

Design, sales and manufacturing of rolling bearings components for the aircraft industry

Germany

GE INTELLIGENT PLATFORMS

GE Intelligent Platforms has decades of experience to help you take your designs from concept, through development, and into deployed military and commercial aviation environments. Get your application off the ground with innovative, reliable hardware in all form factors, including VME, VPX and ATCA.

Single Board computers
Packet Processors
Sensor and Signal Processing
Ruggedization
PLM
Avionics test and measurement
MIL-STD-1553
ARINC
AFDX/ARINC 664
Axis multiprocessing software
TTP development suite for Time Triggered Ethernet (designed to allow DO-178 and DO-254 certification)
Ethernet Switches (Neternity)
Core i7-Products
VPX
OpenVPX
GPGPU devices (CUDA)

Germany

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

HAINBUCH GMBH

Design and manufacturing of extremely precise and exceptionally rigid work holding solutions. We specialize in difficult applications yielding exceptional results / Workholding Technology

Germany

IZM POLYCAST GMBH & CO. KG

manufacturers of components with the material Mineralguss, also known as polymer concrete or mineral casting.

Germany

NEWTEC GMBH - SYSTEM ENTWICKLUNG UND BERATUNG

Safety critical Hardware and Software development for automotive, medical, military and avionic & aerospace. Process consulting for safety critical development processes

Germany

Q POINT COMPOSITE

develops and produces innovative heatable composite products. Our core product is self heating composite tooling

Germany

SCHWÄBISCHE WERKZEUGMASCHINEN GMBH

Multi spindle machining centres, automotive, aluminum and titanium workpieces aerospace, turnkey solutions

Germany

VEROCEL GMBH

Verocel offers expertise, services, consulting, and tools to the Avionics industry for the verification of software according to DO-178B and related standards, including : Development and review of software plans and standards,
Software requirement and test development,
Software structural coverage analyses,
Life cycle data traceability,
Outsourcing of the verification activities (complete or partial),
Verification of new or already existing software,
Raising of certification levels.

Germany

ZIEGLER GRUPPE

Milling and drilling of highly complex parts in small and mid-size productions runs More than 60 highly qualified employees Complete and pre-finished parts ready for assembly (mounting bushes and inserts, Surface/heat treatment)

Germany

ASTRONAUTICS C.A LTD

Design, Develop and manufacture avionics & defense electronics products and systems (glass cockpit, electronic flight bag, mission systems)

Israël

ICM INSTITUT CHEMNITZER MASCHINEN- UND ANLAGENBAU

NETWORK OF 70 COMPANIES - Cooperation, research and development in different fields: Medical technology, environmental technology, micro-systems technology and mechatronics

Germany

LAP GMBH

Laser systems for positioning and measuring.

Germany

P3 DIGITAL SERVICES GMBH

P3 is a worldwide acting group of companies with offices in America, Europe, Asia and Africa. For our customers we carry out complex development projects including the complete project management, conception and coordination – and integrate suitable partner companies for design and build solutions.

Germany

ROLLS ROYCE GMBH

Together with German partners, Rolls-Royce supplies, produces and supports engines for customers both in Germany and abroad.

Germany

TITAL GMBH

manufacture of titanium and aluminium investment casting products

Germany

WPM-LEIPZIG

Testing machines in many different versions, including the performance of computer-controlled, static and dynamic researches in tensile, compression and bend tests.

Germany

AEROMAOZ CORP

Developer and manufacturer of illuminated control and display panels. Night vision conversions, keyboards and bezels / Man machine interfaces

Israël

AVIRON

Extrusion of aluminum and hard alloys for the aerospace industry

Israël

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

CYCLONE - ELBIT SYSTEMS AEROSPACE

Elbit Systems Cyclone Ltd (Cyclone), a wholly-owned subsidiary of Elbit Systems, serves as the Elbit Systems Group's design and production center for metal and composite structural aircraft components and parts for leading aerospace companies and OEMs. Cyclone designs and produces unique assemblies for civil and military aircraft such as the F-15, F-16 and F-18 fighter aircraft, Boeing 737 to 787 commercial aircraft. Cyclone also provides Standard Depot Level Maintenance (SDLM) and other maintenance services to fixed and rotary wing aircraft customers worldwide, including systems installation and integration services.

Cyclone is certified for ISO 9001 and Boeing AS 9100-2000 Advanced Quality Systems, and is a Boeing Gold Level Preferred Supplier. Our dedicated project management teams work hand-in-hand with a skilled and experienced workforce to ensure that all products and services are performed on the highest professional level and in full compliance with contract requirements.

Israël

NIR-OR LTD.

Development and Production of electronic equipment for Aerospace and military use

Israël

A.G.E. SRL AIRCRAFT GROUND EQUIPMENT OFFICINE MECCANICHE

Overhaul, maintenance, assistance and sales of special vehicle, machines equipments, fixtures, works stand, platforms and modular jigs for aircraft structures and aircraft ground support

Italy

AERMEC 83 SRL

Sales agency organisation

Italy

AGIE CHARMILLES SPA

Milling working centers; high speed cutting; High performance cutting; EDM; Laser machining / Customer Services

Italy

ISRAEL EXPORT & INTERNATIONAL COOPERATION INSTITUTE

Give support to Israeli companies who wish to export and cooperate with foreign firms as well as find business opportunities and businesses developing abroad (Delegation of 5 Companies).

Israël

TEFEN METAL CASTINGS LTD

Metal castings, machining, cutting tools

Israël

A.L.A SPA

Service provider and logistics activities for aerospace industries

Italy

AEROMOTIVE SOLUTIONS S.R.L

Consulting and training activities mainly addressed to aerospace, automotive and railway

Italy

**LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS**

**AIAD - ITALIAN INDUSTRIES FEDERATION FOR
AEROSPACE, DEFENCE AND SECURITY**

The Federation is the national industrial organisation representing high technology companies involved in the design, construction, overhaul and repair of platforms, electronics, aerospace, naval and ground systems and equipment for institutional or similar customers. Research Centres and/or application and service Companies related to Aeronautical, military or security activities, can join the Federation as well. If operating within the fields of activities of the Federation, other subjects can join AIAD: other trade Associations as well as Confindustria conglomerate Federations and/or Associations and Organizations, even if established by other subjects than companies, provided they are not already members of Confindustria. The Federation's aims are pursued through the following actions: a) monitoring and propose actions in relation to Legislative aspects; b) dissemination of information, through public reports and the distribution of documents, to governing political authorities, local authorities, representatives in International Organisations such as the European Union, NATO, WEU, the heads of other organisations and the national and foreign press; c) coordination of suitable actions aimed at guaranteeing fair and equal treatment for the national industry in other EU countries and in non EU countries, where Italy has stipulated collaboration agreements; d) statistical analysis of economic indicators relating to activities represented and the dissemination of results both nationally and internationally; e) coordination of promotional actions; f) holding of meetings, conferences and debates on topics of interest.

AIAD is affiliated to CONFINDUSTRIA and is a member of ASD (Aerospace and Defence Industries Association of Europe), UNAVIA (The Italian Association for Standardization, Education and Training in the Aerospace Sector) and UNAVIAcert (a third party Certification body for Aerospace and Defence companies). AIAD member companies, with a total of 50.000 employees are responsible for almost the entire Italian production in the Aerospace, Defence and Security fields and they represent the Aerospace and Defence sector. ANPAM (National Arms and Munitions Manufacturers Association) is also member of AIAD.

Italy

AIRTRONICS S.R.L. /ROCKWELL COLLINS ISR

Sales & Consulting

Italy

ALENIA AERONAUTICA SPA (TORINO)

Aerostructure for civil and defense aircraft

Italy

ALFA MECCANICA SRL

High precision machining for aeronautical and aerospace sectors, CNC milling and turning 3/4/5 axes, die-sinking/wire E.D.M machining, unit assembly

Italy

ANGELANTONI INDUSTRIE SPA

Design and production of environmental test chambers and space simulators, shakers

Italy

APR SRL

Production of highly critical rotating components (Impellers, Blisks, Blades), prismatic parts and sub-assy for aero-structures and aero-engine, components and sub-assy in High Performance Thermoplastics: co-design and production

Italy

ASI - AGENZIA SPAZIALE ITALIANA

Italian Space Agency

Italy

A-TECHNOLOGY SPA

Design and Construction and Testing of composite parts: structural elements, exterior bodywork, interiors.

Italy

ATLAS COPCO ITALIA SPA

Atlas Copco Tools and Assembly Systems General Industry is a division within Atlas Copco's Industrial Technique business area. PRODUCTS:hand-held electric and pneumatic tools,assembly systems,software and services to the aerospace industry worldwide

Italy

AVIO SPA

Avio has developed a role as an important subsystems and component maker, participating in major international aeronautical and space programs with a presence in all phases of product life-cycle: from research & development to manufacture and assembly, until service and overhaul.

Core Business:

Propulsion for aircrafts and helicopters commercial and military

>Space propulsion

>Propulsion aero-derived for marine and industrial applications

>Control & Automation Systems and Electrical Systems

>Maintenance, repair & overhaul activities of engines and components for civil, military and aero-derived applications

Italy

AVIOLAMER

Design and mechanical machining

Italy

ANSYS ITALIA SRL

Develops, markets, and supports engineering simulation software used to predict how product designs will operate and how manufacturing processes will behave in real-world environments

Italy

ARES SRL

Quality, Environment and OH&S Management System development and support; auditing.

Aerospace Quality Management Systems development and support; auditing.

EASA part 145, EASA part M (CAMO and Maintenance organisations) consultancy and qualified senior person offer.

Training and technical support; project management.

CE mark conformity evaluation.

OH&S consultancy; qualified safety manager offer

Italy

ASTRO INDUSTRY SRL

Aerospace treatments & components

Italy

ATI STELLRAM SRL

Sale of carbide inserts and tools

Italy

AUTODESK SPA

A world leader in 3D design, engineering, and entertainment software With the Autodesk solution for Digital Prototyping, Aerospace suppliers design, visualize and simulate products before they are built. Engineering teams can work at the same time on a single digital model, integrating mechanical and electrical systems designs and reusing modular design elements, improving reliability and speeding time to market.

Italy

AVIOCHEM S.R.L.

Sealants & accessories, Leak detection & fast curing, Sealant removal, Honeycomb, Joints & Seals, Plastic Media, 3M solutions

Italy

AVIOMETAL SPA

Distribution of raw aerospace materials (SHEET, PLATE, ROD AND BAR)

Italy

LISTE PROVISOIRE DES PARTICIPANTS
TEMPORARY LIST OF PARTICIPANTS

AVIOTEC SAS

Development, manufacturing and assembly of: high-performance passive thermal protection, blankets for ballistic protection (micrometeoroid and debris). Tissue articles for application in aerospace, aeronautic and military fields. Construction, prototyping, mass-production of multilayer panel to cover complex shapes from our project or according to customer's specifications / Research and development of high-tech electrical harness for application in aerospace, aeronautics, navy, defense, rail and robotics

Italy

BENOZZI ENGINEERING SRL

Precision engineering

Italy

BISIACH & CARRU' S.P.A.

Design and manufacture of drilling and riveting automatic systems; robotized systems for airplane components assembling; automatic systems for positioning, drilling and stringer/clip rivetting; robotized systems for working

Italy

BONETTI AIRCRAFT

Distributor of raw materials, composites, prepreg materials, chemicals, rubber, fasteners, avionics & tooling

Italy

BRETON SPA

High-speed 5-axis machining centres

Italy

CCIAA TORINO

Torino Chamber of Commerce and Industry

Italy

CG TECH

Software house specialized in numerical control (NC/CNC) simulation, verification, optimization, and analysis software technology for manufacturing. The main software product is VERICUT® used to simulate CNC machining in order to detect errors, poten

Italy

Italy

DISTRETTO PRODUTTIVO AEROSPAZIALE PUGLIESE

The mission of the Apulian Aerospace District is to facilitate the rising of the level of competitiveness of the technical- scientific system, to favor the attraction of new national and international investments, to integrate the supply chain and to contribute to the qualification and the strengthening of it.

Italy

EFFECIEFFE SRL

On the market of productive activities and client support, specialized in the field of user and maintenance manuals, for which employs a team of professionals able to provide its COSTUMERS consulting services, too. Effecieffe conceives, writes and develops any kind of user manuals, second level manuals and catalogues, either on paper or in electronic format, for industrial products and services. Effecieffe develops multimedia (CBT) SCORM standard compatible courses and designs software and E-learning teaching facilities. Effecieffe offers a custom built product, not prepackaged, whose characteristics meet the European and international standard. Its technical know-how and professional skills allows Effecieffe to offer the Customer constant support and assistance.

Italy

COMPOSITEX SRL

Composite materials processing for several industrial sectors, such as aeronautics, automotive, sailing

Italy

CORONA S.P.A.

Multilayer printed circuit boards

Italy

DEMA SPA

DEMA - Design Manufacturing SpA - has been operating in the aerospace field since 1993, as a prominent innovative company thanks to the interpretation of the most complete development form: the verticalization. This process offers a product that integrates different capabilities: engineering and manufacturing engineering; manufacturing of sheetmetals, machining and composite parts; heat treatments; assembly. DEMA is partner of Alenia Aeronautica and is involved in the most important international aeronautical and R&D programs.

Italy

DISTRETTO AEROSPAZIALE LOMBARDO

DISTRETTO AEROSPAZIALE LOMBARDO is a network of companies able to integrate different competences: from fixed- to rotary wings, from satellites to avionics, from materials to equipments and to the most qualified systems for flight. In Lombardia around 200 companies and 14,500 employees operate in the various areas of the aerospace industry and produce about 4 billion Euros of total turnover. The region is able to generate about 38% of the Italian export of aerospace industry.

Italy

ECOR RESEARCH SPA

The core business of the company are special processes, especially the core competences are related to welding, braze welding in ultra high vacuum (UHV) and heat treatment on titanium and aluminum alloys, stainless steel and special alloys.

Italy

ELETTRONICA ASTER

Electronic & hydraulic equipment

FILAS S.P.A. – DISTRETTO TECNOLOGICO AEROSPAZIALE DEL LAZIO

Filas - the Financial Investment Agency of Regione Lazio

Italy

FRATELLI CANALICCHIO SPA

Machining : CNC turning and milling (3-4-5 axis), arc welding , tig, braze welding, grinding, tubes cutting and bending, wire EDM, sheet metalwork, With unworked, mirror polished, hardened, sandblasted, burnished surface or with surface coverings obtained after thermal or galvanic treatments (nickel plating, silvering, gilding process, etc)

Italy

GAROFOLI, SPA

SYSTEMS, EQUIPMENTS AND COMPONENTS FOR AEROSPACE INDUSTRY, TELECOMMUNICATIONS, DEFENCE AND ENERGY. SHELTERS. DESIGN AND PRODUCTION. MICROMACHINING AND MACHINING. DESIGN AND PRODUCTION.

Italy

GIANNUZZI SRL

Design equiping and manufacturing of aircraft interiors products or similar

Italy

HTF SRL

Construction and assembly of sheet metal components, construction equipment and assembling jigs, heat treatment and welding for aerospace applications

Italy

ENGINSOFT SPA

EnginSoft is a key partner for innovation in Aerospace, Automotive and other advanced manufacturing industries, providing global value added services to their customers helping them make better products in shorter time, and to create a strategic competitive advantage from the enhanced, more efficient development process.

EnginSoft has over 25 years of solid engineering and technology development experience, including creating tailored solutions based on open source tools, which address customers' challenges and needs for innovation. We are focused on the mission of simulation and optimization in critical engineering performance areas including structural integrity, system dynamics, CFD, safety, and reliability. Our expertise ranges across wide areas and niches including, Ballistics, Blasting, Design of Composite Structures and simulation of their behavior, and more others. Through our best-in-class technologies, experience, people and effective methodologies, EnginSoft has become the key strategic partner for leading manufacturing companies worldwide.

Designing, manufacturing and assembling complex aerospace structures

Italy

LMS ITALIANA SRL

LMS, the leading partner in test and mecha- tronic simulation in the automotive, aero- space and other advanced manufacturing industries, helps customers get better products to market faster. With a unique combination of mechatronic simulation software, testing systems and engineering services, LMS tunes into mission critical engineering attributes, ranging from system dynamics, structural integrity and sound quality to durability, safety and power consumption. With multi-domain and mechatronic simulation solutions, LMS addresses complex engineering challenges associated with intelligent system design and model-based systems engineering. More than 900 LMS professionals serve over 5,000 manufacturing companies worldwide.

Italy

INTECS SPA

INTECS provides leading-edge software technologies to support the major European and Italian organisations in the design and implementation of advanced electronic systems for the Defence, Space and Civilian markets.

LMA SRL

LMA is a One-Stop-Shop Partner in Precision Mechanical Machining for small, medium and large parts up to 6000x3000x1500 mm and Sheet Metal Forming, Heat Treatments for aluminum alloys (2000-6000 & 7000 Families, steel stress relieve and aging) exclusively for the Aerospace Industry since 40years; from raw material purchase, 3,4,5-axis machining, Milling Turning, Sheet Metal Forming, CNC high speed machines, CNC programming, sub-assembly and assembly, CMM control and , as Tier 1 for part of its customers, complete handling of all processes and management of an excellent Supply Chain for all activities not realized in-house. Typical raw materials used: Al alloys, Ti alloys, Inox, Inconel, PH steels, Mg alloys, Cu-Be and others for customers worldwide.

LMA is expanding its in-house activities, on the basis of a three year investment plan (2009-2011), to offer to its customers additional services and more integrated value chain by being able to manufacture large and manage large and mixed WPs for different programmes worldwide

MECCANICA BPR SNC

Meccanica Bpr produces "sleeve and spool" valves, gears, microgears, their assemblies, actuators, speed reducers or any other high precision part. Moving from the customer drawings or from his 3D models, Meccanica Bpr is able to build high precision mechanical parts or assemblies; starting from the supplying of raw material (according to all international standards) to the final heat and surface treatments and non destructive controls, Meccanica Bpr gives its customers a complete good.

Italy

MECFOND S.P.A

Machining of medium and large dimensions aeronautical parts

Italy

MERLETTI AEROSPACE SRL

Manufacturing and assembly of components and sub-assy for aerospace industry and verticalized management of customer orders.

Italy

MICROTASK EMBEDDED SRL

MICROTASK Embedded has built a successful business by providing their customers with well integrated solutions from requirements specifications to coding and testing for embedded projects development, with top-level post-sale technical support. In particular, we have developed great expertise in safety critical applications for certification according to DO178B, DO254, or IEC61508 standards.

PRESTEL ELETTRONICA S.R.L

Since 1987 Prestel produces harnesses in the aeronautic field, both civil and military, and automotive. From 2010 has been implemented a department dedicated to activities of engineering and industrialization of harnesses with the aim to improve the range of services supplied. The production process consists of several stages, starting from the laser mark of wires and ending with the final test of harnesses performed using specific analyzers. Operators dedicated to the production and assembly of the harnesses are specifically qualified in order to guarantee a high quality of products. Prestel's quality system is made in accordance with UNI EN ISO 9001:2008 and the specific aeronautic standard JISQ/EN/AS 9100:2005 (that in 2011 will be updated to new standard JISQ/EN/AS 9100:2009)

Italy

PROCESSI SPECIALI SRL

Processi Speciali is in the business of :
Mechanical Machining and sheet metal production (*)
Material control, NDT, Chemical Process, Protective Treatments and Metal Conditioning (shot peening).
Processi Speciali offers an integrated chain of services allowing clients' components to pass through the mechanical construction, non destructive testing, shot peening, chemical and protective treatments and sub-assy assemblies entirely at our premises.
This integrated chain of services can be applied to a broad range of structural and mechanical aircraft components, in a wide range of materials such as steel, aluminum and titanium alloy.

PELI PRODUCTS SA

Peli™ Products, S.L. U. is the Europe, Middle East and Africa Headquarters of Pelican™ Products, Inc., the global leader in design and manufacture of both high-performance case solutions and advanced portable lighting systems.

Our products are used by professionals in the most demanding markets including firefighters, police, defense / military, aerospace, entertainment, industrial and consumer. Peli™ Products are designed and built to last a lifetime.

The company's global footprint consists of 22 offices and 6 manufacturing facilities across the globe. The EMEA Headquarters are based in Barcelona (Spain), with subsidiaries in United Kingdom, France, Germany, The Netherlands and the United Arab Emirates.

At the Aerospace and Defense Meetings in Torino, Peli will proudly present its largest offering of Peli-Hardigg rotomoulded protection solutions, including Single lid cases, extra large shipping containers, rack-mount Cases for electronics and specialty products such as the mobile field desk.

With over 50 years of experience and more than 500 standard sized cases, Peli-Hardigg Technical Packaging division designs and manufactures reusable shipping and storage cases and containers meeting the most extreme operating conditions. An experienced technical team of over 30 engineers and technicians design containers according to customer specifications and anticipating deployment conditions.

BAL SEAL ENGINEERING EUROPE BV

BalSeal Engineering designs and produces special SEALING SOLUTIONS for challenging applications (high speed, pressure and temperatures).

Balseal Engineering has a patented "Canted Coil Spring" used for MECHANICAL & ELECTRICAL CONNECTIONS, EMI SHIELDING and GROUNDING.

Unique properties of this Canted Coil Spring are:

- Compact & light weight
- Quick installation
- Controlled forces
- Multiple contact points
- Multi-functional: mechanical, electrical and EMI Shielding
- Bigger tolerances possible
- Shock proof
- Custom made: different sizes and materials

Regarding the special seal designs, our seal jacket use very low friction PTFE (Teflon) modified with fillers to adjust material characteristics to suit particular applications balancing low friction against long life. Canted coil spring activators are used which give a constant seal energizing force over a broad deflection range. This has the advantage that sealing force will remain constant despite seal lip wear.
